The dangers from using drugs

Dangers include:

- Increased risk of accidents
- Dependence & withdrawal
- Death
- Unsafe sex

Drug dangers are the result of the interactions between drug, set and setting

- **Drug**
  - How much is taken
  - How often the drug is taken
  - Purity of the drug
  - Mix of drugs
  - Method of taking

- **Set** (Individual characteristics)
  - Physical health problems
  - Biological sex
  - Taker's expectations
  - Energy levels

- **Setting**
  - Out of the way places
  - Driving or operating machinery
  - School
  - Sexual
